BabacoFulfillment
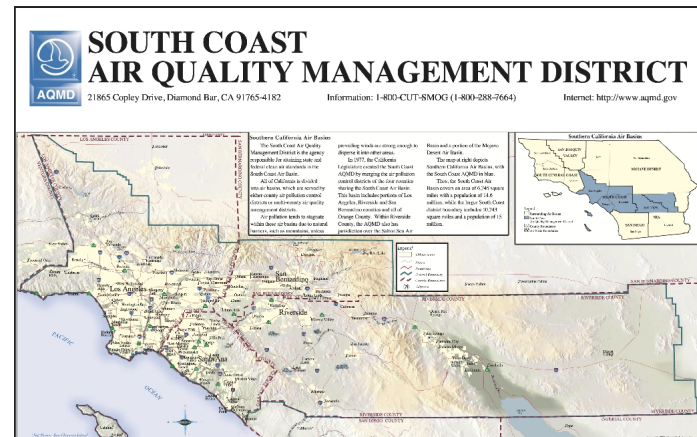

Smart, Seamless, Secure, Shipping Management

Now Offering the Only Solution Specifically Dedicated to Environmental Compliance for California Warehouses

[Warehouse Actions and Investments to Reduce Emissions (WAIRE)](), is a new requirement for Southern California warehouses in the South Coast AQMD (Air Quality Management District). If you own or operate a warehouse in this region you are now required to submit truck data or pay a mitigation fee every year.

The Babaco Fulfillment app and web platform, is currently the only software specifically dedicated to capturing, processing, and submitting your WAIRE audit requirements both in the field and for your back office. Babaco Fulfillment is offering a free demo and trial when you contact connect@babacofulfillment.com. You can also learn more about the BOL and Container Inspection solution at babacofulfillment.com and on the following page.
